

Incident Management Situation Report
Friday, April 4, 2025 – 0730 MDT
National Preparedness Level 1

National Fire Activity:

Fire Activity and Teams Assigned	Totals
Initial attack activity:	Light (63 fires)
New large incidents:	1
Large fires contained:	0
Uncontained large fires:	11
CIMTs committed:	4
Type 1 IMTs committed:	0
NIMOs committed:	1

Nationally, there are two fires being managed under a strategy other than full suppression. Uncontained large fires include only fires being managed under a full suppression strategy.

[Understanding the IMSR](#)

[IMSR Map](#)

This report will be posted every Friday at 0730 Mountain Time unless significant activity occurs.

Active Incident Resource Summary

Southern Area (PL 3)

Fire Activity and Teams Assigned	Totals
New fires:	18
New large incidents:	1
Uncontained large fires:	9
CIMTs committed:	4
NIMOs committed:	1

NIMO (Team 1) has been mobilized to assist with ongoing wildfire activity in the Southern Area.

Table Rock Complex (3 fires), South Carolina Forestry Commission. Transfer of command from CIMT (SA Team 2) back to the local unit will occur tomorrow. Four miles northeast of Sunset, SC. Timber, hardwood litter and brush. Minimal fire behavior with smoldering. Numerous structures threatened. Area and trail closures in effect. Precipitation occurred over the fire area yesterday.

Black Cove, North Carolina Forest Service. Transfer of command from CIMT (NC State Team 1) back to the local unit will occur today. IMT is also managing the Deep Woods fire. Five miles northeast of Saluda, NC. Hardwood litter, light slash and timber. Minimal fire behavior with smoldering. Numerous structures threatened. Area and trail closures in effect. Precipitation occurred over the fire area yesterday.

Deep Woods, North Carolina Forest Service. Four miles northeast of Saluda, NC. Hardwood litter, timber and light slash. Minimal fire behavior with smoldering. Numerous structures and communication infrastructure threatened. Area and trail closures in effect. Precipitation occurred over the fire area yesterday.

Big Ridge, Chattahoochee-Oconee NF, USFS. Transfer of command from CIMT (SA Team 3) back to the local unit will occur tomorrow. Eight miles northeast of Clayton, GA. Hardwood litter and timber. Minimal fire behavior with smoldering. Structures threatened. Area, road and trail closures in effect. Precipitation occurred over the fire area yesterday.

Rattlesnake Branch, North Carolina Forest Service. Transfer of command from CIMT (SA Team 1) back to the local unit will occur tomorrow. Eleven miles southeast of Waynesville, NC. Hardwood litter and brush. Minimal fire behavior. Numerous residences threatened. Area, road and trail closures in effect. Precipitation occurred over the fire area yesterday.

Alarka #5, North Carolina Forest Service. Five miles south of Bryson City, NC. Hardwood litter and brush. Minimal fire behavior with smoldering.

East Marsh, Lake Woodruff NWR, FWS. One mile west of Deland, FL. Grass. Moderate fire behavior with creeping and smoldering.

* **Red Horse**, Florida Forest Service. Fire started on private land seven miles northwest of Bowling Green, FL. Southern rough. Moderate fire behavior with smoldering.

TOTAL FIRES:		578	89	69	66	14,903	675	16,380
TOTAL ACRES:		93,592	608	31,190	2,907	620,419	61,721	810,438

Ten Year Average	Quantity
Fires (2015 – 2024 as of today)	10,429
Acres (2015 – 2024 as of today)	708,607

Cumulative acres showing in the Active Incident Resource Summary Table may not be reflected in the YTD statistics due to a lag in units completing YTD adjustments in the SIT/209 Application. Otherwise, changes in agency YTD fires and acres reflect more accurate mapping or reporting adjustments.

Predictive Services Discussion:

An upper-level low will bring showers, with snow in the mountains to the southern Rockies today, with widespread precipitation falling in the southern High Plains tonight into tomorrow, changing to snow in portions of southeast Colorado and northeast New Mexico. A cold front will remain stalled from central Texas into the Ohio Valley through Saturday, with widespread showers and thunderstorms producing heavy rain. The heaviest rain is expected to fall from northern Arkansas into western Kentucky and Tennessee producing widespread, potentially catastrophic, flooding. The front will move east again Sunday into Monday, with rain spreading across the Appalachians to the East Coast. However, a period of breezy and dry southwesterly winds is likely before the rain arrives Sunday to create areas of elevated conditions along the southeast Atlantic coast and Florida. Well above normal temperatures are forecast across Florida into early next week before the cold front arrives Tuesday to bring relief with scattered showers and thunderstorms. In the northern half of the West, a period of drier weather is expected today and tomorrow before a cold front moves through Sunday into Monday bringing light to moderate precipitation for the Northwest and northern Rockies. A wetter pattern is expected to develop across southern and western Alaska this weekend, with precipitation moving into portions of the Interior early next week. Sea breezes are expected across Hawai'i today, with widespread showers for the western islands, before a drier light to moderate trade winds develop this weekend.
