

Incident Management Situation Report
Tuesday, January 14, 2025 – 0730 MDT
National Preparedness Level 2

National Fire Activity:

Fire Activity and Teams Assigned	Totals
Initial attack activity:	Light (35 fires)
New large incidents:	0
Large fires contained:	0
Uncontained large fires:	4
CIMTs committed:	1
Type 1 IMTs committed:	2
NIMOs committed:	0

Nationally, there are zero fires being managed under a strategy other than full suppression. Uncontained large fires include only fires being managed under a full suppression strategy.

[Understanding the IMSR](#)

[IMSR Map](#)

Eight MAFFS C-130 airtankers and support personnel have been deployed to Port Hueneme, CA to support wildland fire operations in southern California. Their respective units are as follows: 153rd Airlift Wing (WY Air National Guard), 302nd Airlift Wing (CO Air Force Reserve), 146th Airlift Wing (CA Air National Guard), and 152nd Airlift Wing (NV Air National Guard).

This report will be posted Monday - Friday at 0730 Mountain Time unless significant activity occurs.

Active Incident Resource Summary

GACC	Incidents	Cumulative Acres	Crews	Engines	Helicopters	Total Personnel	Change in Personnel

TOTAL ACRES:		1,703	2	4	18	29,623	327	31,677

Ten Year Average	Quantity
Fires (2015 – 2024 as of today)	419
Acres (2015 – 2024 as of today)	4,477

Cumulative acres showing in the Active Incident Resource Summary Table may not be reflected in the YTD statistics due to a lag in units completing YTD adjustments in the SIT/209 Application. Otherwise, changes in agency YTD fires and acres reflect more accurate mapping or reporting adjustments.

Predictive Services Discussion:

Northeasterly Santa Ana winds will continue across southern California, with peak gusts to 50 mph as relative humidity falls to near 10% and poor overnight recovery. Locally stronger wind gusts to 75 mph are possible in wind prone areas. Lake-effect snow is forecast in the Great Lakes under northwesterly winds today, with locally heavy amounts downwind of the lakes. Dry weather is expected across the rest of the contiguous US, with breezy and cold northwesterly winds affecting much of the East Coast. Strong inversions are likely to develop across the Intermountain West under strong high pressure aloft. Low pressure in the Gulf of Alaska will continue to bring rain to the south coast of Alaska and the panhandle. Amounts will be lighter than previous days, while cooler temperatures are forecast across much of the Interior. Moderate trade winds are forecast across Hawai'i, with a few light showers possible in windward areas.
